**Subject:** Nov 1, 2016 amended license with changes noted  
**Attachments:** Exhibit 016 License SUA-1600 Amendment 1 ML16202A174.pdf; SER\_Amendment1\_Nov2016\_ML16202A158.pdf

In case you need this info for future reference, I noted where the changes are in the NRC amended license. The amendment to the Safety Evaluation Report explains that requirements have been removed from the license related to financial assurance (9.5) and the revised decommissioning, decontamination, and reclamation plan (12.23) because Powertech has met these requirements with information added to the end of the list under administrative condition 9.2.
